ITEM NO. 10

As you are aware, the equity shares of the Company are listed on the National Stock Exchange of India Limited (NSE) and The Bombay Stock Exchange Limited, (BSE). The equity shares are also available for trading under the derivative segment of NSE.

The market price of the equity shares of the Company has witnessed significant increase over last couple of years. In order to improve the liquidity of the Company's shares in the stock market and to make it accessible to the retail investors, it is proposed to sub-divide the nominal value of the equity portion of the authorised share capital of the Company.

Presently, the authorised equity share capital of the Company is ₹ 49,40,00,000 divided into 4,93,00,000 equity shares of ₹ 10 each and 1,000, 9% Redeemable Cumulative Preference shares of ₹1,000 each. It is proposed to sub-divide each

The Board of Directors recommend passing of the Resolution as set out in Item No. 10 of the accompanying Notice.

The Directors of the Company may be concerned or interested or deemed to be concerned or interested in passing of the said resolution only to the extent of equity shares held by them in the Company.

In line with the recent circulars & clarifications that have been issued by the Ministry of Corporate Affairs pertaining to securities laws to promote the "green initiative" and facilitate speedier and more efficient corporate communication and corporate meetings, it is considered prudent to make certain amendments in the Articles of Association of the Company to facilitate ease of applicability and implementation of the applicable securities laws.

CARLTON TRAVEL GOODS LIMITED

Carlton Travel Goods Limited (CTGL), the wholly owned subsidiary of your Company which sells and distributes brand "Carlton" in U.K. and European markets incurred heavy losses, both operationally as well as on currency translated losses in the year 2008-09. In spite of all these measures, there were no signs of recovery. Your Company instead of selling directly through its work force in U.K. appointed Distributors to reduce fixed cost overheads. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. INDUSTRY STRUCTURE AND DEVELOPMENT

LUGGAGE

Domestic Markets

The year under review was very good due to growth in travel sector which directly impacts the growth of the luggage category. Increased disposable income, significant increase in investments in travel infrastructure like airports, national highways etc have contributed to growth in travel segment. Both domestic and international air travel have now shown consistent double digit growth over a year. World Tourism Organization is reported to have predicted that India will account for 50 million outbound tourists by 2020. More and more international destinations have been investing in India to attract Indians to visit them.

The luggage category is estimated to be of ₹ 3500 Crores in size and growing at around 15% per annum, with soft luggage growing faster than hard luggage. All distribution channels have grown well, in particular organized modern trade across lifestyle and hyper formats. In the coming year, your Company expects to witness more new product introductions, consolidate Hard Luggage premium volumes and further enhance Soft Luggage volumes.

International Markets

The International Business of your Company registered a growth in all regions led by the Asia Pacific region which grew by 78%. Despite recession in Europe and a depressed situation in the Middle East, your Company's business grew by 13% in Europe and 18% in the Middle East. There were several new products launched in "Carlton" ranges which are extremely light weight, aesthetic, colourful and appealing to most consumers while being affordable. These launches received a very good response from most of the International markets. The value for money offering in recessionary times helped your Company grow its business.

MOULDED FURNITURE

Your Company registered a growth in the business of over 33% as compared to the previous year, despite the upward movement of raw material cost which continued to be a concern throughout the year. The brand 'MODERNA' because of its uncompromised quality has managed to register another year of good performance.

B. OPPORUTNITIES AND THREATS

LUGGAGE

Your Company expects domestic luggage market to grow on account of increased business and leisure travel in the year ahead and higher disposable incomes in India. Increase in air travel will benefit the popular and premium segment of the market. With investment on premium brands like 'Carlton' and 'VIP,' your Company is equipped to maximize its share of this growth. With your Company's multi segment – multi brand approach, it will be able to address all segments of the market, including those customers who are price conscious, through value brands like Alfa, Skybags and Aristocrat. With favorable marriage calendar during the year, hard luggage demand is likely to be robust.

Crude oil prices going up on account of uncertainty in the MENA region will increase the input costs for hard luggage. Appreciation of the Yuan, increased material and labour costs may increase buying prices for soft luggage finished goods from China. These cost increases may pressure your Company's margins, however it should be noted that all luggage players will experience the same cost pressures across the industry.

MOULDED FURNITURE

Being primarily a plastic product, moulded furniture will also experience margin pressure if oil and plastic prices remain high and volatile. However, the Moderna brand provides some pricing power.

C. SEGMENT / PRODUCT WISE PERFORMANCE

LUGGAGE

Your Company has segmented the market and clearly defined the role for each of its six brands in the category. CARLTON has been introduced through soft launch in November 2010 across premium distribution channel. Initial response has been very encouraging. Its positioning as international stylish premium brand from England has been well received.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT (Contd.)

With multiple successful range launches across categories and with consistent and effective marketing investments, brand 'VIP' has done very well and has achieved best ever performance. The growth in the soft luggage segment has been almost double than that of the entire category. The brand continues to be the leader in the category and with bank of innovative product launches, the brand is likely to further improve its lead going ahead.

After successful test marketing in certain territories, the brand 'SKYBAGS' is being rolled out across traditional distribution channels beyond Hyper channel. The brand is positioned as a stylish offering for newer generation of travelers. Your Company has signed Bollywood star icon, 'John Abraham' for endorsing SKYBAGS and has promoted SKYBAGS through mass media nationally.

After a gap of seven years, brand 'Alfa' was promoted on TV during October - November 2010 marriage season. The new range of 'Boxer' hard side upright has been very well received by the market and has become one of the largest volume ranges in a very short time. With renewed focus on brand 'Footloose' and with improved product ranges, this brand has more than doubled its turnover in the year under review. This performance has given a lot of confidence to your Company to further expand the brand width in the years ahead. 'Aristocrat' brand has shown robust growth in the soft luggage segment.

MOULDED FURNITURE

The implementation and continuation with advance payment policy has substantially de-risked the business. Renewed focus on institutional business has also helped your Company to get good volume from different segments.

D. OUTLOOK

LUGGAGE

Considering the threats, opportunities and the strengths of your Company, the key task at hand will be to make most of the category growth across all price segments. Your Company is successfully executing its multi brand – multi segment strategy with consistent investment in advertising for all its luggage brands.

MOULDED FURNITURE

Your Company is confident that it will be able to improve upon its sales in the coming years through fresh initiatives, including the introduction of products of different design and colours.

E. RISKS AND CONCERNS

The dependence of your Company on China for sourcing of soft luggage continues. Any appreciation of Chinese Yuan may adversely impact the margins of your Company.

F. INTERNAL CONTROL SYSTEMS

During the year under review, your Company has appointed Ernst & Young Private Limited, as one of the Internal Auditors of your Company for maintaining internal controls to safeguard your Company's assets against losses from unauthorized use and ensure proper authorization of financial transactions, to evaluate the current state and identify performance gaps, to prioritize improvement opportunities and future state vision across all functions of the Company, to provide a high degree of assurance regarding the effectiveness and efficiency of operations, to assess the reliability of financial controls and compliance with laws and regulations. Your Company has a budgetary control system to monitor all expenditures against approved budgets on an ongoing basis.

The Internal Auditors submit their reports to the Audit Committee from time to time. The management duly considers and takes appropriate action on the recommendations made by the Statutory Auditors, Internal Auditors and the Audit Committee of your Company.

All significant changes, if any, in the accounting policies during the year, have been disclosed in the notes to the financial statement.

trustees / appropriate authorities. The Company's defined benefit plans include provident fund, gratuity and leave encashment. In terms of the Guidance on implementing the revised AS 15, issued by the Accounting Standards Board of the Institute of Chartered Accountants of India, the provident fund set up by the Company is treated as a defined benefit plan since the Company has to meet the interest shortfall, if any. However, as at the year end no shortfall remains unprovided for. It is not practical or feasible to actuarially value the liability of provident fund considering that the rate of interest as notified by the Government can vary annually. Further the pattern of investments for investible funds is as prescribed by the Government. Accordingly other related disclosures in respect of provident fund have not been made.

If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the profit and loss account. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

PROVISION AND CONTINGENT LIABILITIES:

The Company creates a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

14 Employee Benefits:

The disclosures as required under the revised AS 15 are as under:

a) Defined Benefit Plan

The Company has schemes for long-term benefits such as provident fund, gratuity and leave encashment. In case of funded scheme, the funds are recognised by the Income tax authorities and administered through trustees / appropriate authorities. The Company's defined benefit plans include provident fund, gratuity and leave encashment. In terms of the Guidance on implementing the revised AS 15, issued by the Accounting Standards Board of the Institute of Chartered Accountants of India, the provident fund set up by the Company is treated as a defined benefit plan since the Company has to meet the interest shortfall, if any. However, as at the year end no shortfall remains unprovided for. It is not practical or feasible to actuarially value the liability of provident fund considering that the rate of interest as notified by the Government can vary annually. Further the pattern of investments for investible funds is as prescribed by the Government. Accordingly other related disclosures in respect of provident fund have not been made.

The reduction is treated as an impairment loss and is recognised in the Profit and Loss Account.
